Subject: Hunters Pt - Harry Ball has a CD of Steve Dean's Lotus Notes files
20020321 SD on HPoint rad.pdf

Dear Claire,

Thank you so much for your advice. Harry did indeed have some information.

The only file I have in my notes ... I never got his other files and assumed that they went to Rob Terry. I do have a CD with his Lotus Notes files if you want to make a copy. There is a lot there but most of the attachments from those days are WordPerfect documents so it would take some work.
